MR. ADAMS, MR. EMERY, MR. HOYT, MR. NELSON JOIN FACULTY

Four new masters have taken their places on the Faculty this year.

Mr. Arthur W. Adams, Jr., teaches French, Latin, English, and Mathematics. He is a graduate of Boston Latin School and of Harvard College, 1917. He received an M. A. in Education from Teachers College, Columbia University, in 1923. He was the Senior Master at the Hoosac School, Hoosick, New York, where he taught French and Latin for twenty-five years. He lives on the second floor of Perkins House.

Mr. Howard R. Emery teaches American and Modern European History. He graduated from Bowdoin College in 1922 and went to Harvard for an M. A. in History in 1929. He taught at Proctor Academy in New Hampshire and Peddie School in New Jersey, and came to Governor Dummer from Hebron Academy in Maine, where he served as dean. He lives on the second floor of Peirce Hall.

Mr. William D. Hoyt, Jr., teaches American History and Civics. He went to college at Washington and Lee University, majoring in History and English, and in 1932 received a B. A. degree, *summa cum laude*, Phi Beta Kappa. He was awarded the Howard Houston Fellowship, served as Assistant to the Librarian, and earned an M. A. in History in 1933. He received a Ph. D. in History from The Johns Hopkins University in 1940, and was appointed Fellow in History at the Hopkins. From March 1941 to June 1942 he served as Senior Assistant in the Division of Rare Books and Manuscripts at the University of Virginia.

Mr. Hoyt studied at L'Institut de Touraine, Tours, France, in the summer of 1929. He has published more than thirty articles and reviews in scholarly journals. He lives on the third floor of Perkins House.

The work in the boys' machine shop has been increased this year. This work will be in charge of Mr. Oscar P. Nelson of the Haverhill Trade School, who has become a part-time instructor at Governor Dummer.

W. F.

SCHOOL OPENS WITH CAPACITY ENROLLMENT DESPITE WAR

The Academy opened its 180th year this fall with an enrollment of 145 boys. This figure includes a group of 122 boarding students and another group of 23 day students. Every available space in school is occupied at the present time, and Mr. Eames has had to refuse some students for lack of room.

An unusually wide geographical distribution, covering twenty states, one territory, and one South American republic, brings boys from nearly every section of the country. Massachusetts has the largest single group of boarders, 62 in number, Maine has 16, and New York 14. New Hampshire follows with 5, and Connecticut and Pennsylvania each have 4 representatives. California and Illinois come next with 2 students each, and one boy comes from each of eleven states: Florida, Georgia, Kentucky, Louisiana, Maryland, Missouri, New Jersey, Ohio, Rhode Island, Tennessee, Vermont, and West Virginia. The Canal Zone and Columbia, South America, also have one student each.

The day boys commute from Newburyport, Newbury, Rowley, and nearby towns. R. H.

LIBRARY INCREASED BY GIFTS OF MONEY AND BOOKS

During the summer several gifts in the form of books or money to be used for books have been presented to the school. Many of these have been placed in the browsing collection in the Philip Cobb Room, and others are in the Noyes Library.

Mr. James Duncan Phillips, President of the Board of Trustees, contributed several volumes, including titles of current interest such as *America in the Pacific* by Foster Rhea Dulles and *The Background of Our War*.

Mrs. Benjamin Pearson gave seven volumes. Sums of money were given by Mr. Henry M. Payson, the Rev. William W. Patton, the Rev. Richard A. Cartmell, and Mr. Glendon Pomeroy, father of Seward Pomeroy of the Class of 1942, for the purchase of books for the browsing library.

DICK HAAS OPERATING MILLING MACHINE

The school machine shop plays an important part in preparing the boys for war service

Vespers

September 20: The Reverend Palfrey Perkins, of King's Chapel, Boston.

September 27: The Reverend Wallace Anderson, of State Street Congregational Church, Portland, Maine.

October 4: The Reverend George Cadigan, of Grace Church, Salem.

October 11: The Reverend George Buttrick, of Madison Avenue Presbyterian Church, New York City.

October 18: The Reverend Charles C. Merrill, of the Congregational Board of Pastoral Supply, Boston.

* * *

Mr. Perkins used as his text the Biblical phrase, "soul take thine ease." He stressed the importance of the fact that the soul should never take time out in the struggle of life.

Mr. Anderson centered his talk around the verse, "if you have faith, nothing shall be impossible unto you." He stated that one function of religion is to equip men to deal with difficult situations. When human strength runs out, he said, religion introduces us to a region where there is superhuman strength.

Mr. Cadigan spoke about the importance of belonging to the Christian church—not to any one sect, but to the universal church.

Dr. Buttrick's talk took the form of an imaginary visit to a temple in which three halls of heroes were pointed out by a figure representing the universal conscience.

Dr. Merrill presented the text, "whom, when Paul saw, he thanked God and took courage," then described the incident of the apostle Paul's arrival at Rome.

LAKIN ADDRESSES SCHOOL ON CURRENT AFFAIRS

Harrison Lakin, former member of the consular service and the diplomatic corps, spoke to the entire school at the meeting on Friday, October 2. His talk covered a wide range of subjects connected with current affairs, with particular reference to the progress of the war in Russia.

Mr. Lakin's talk was followed by a question period, and later in the evening a group of boys continued the discussion at a gathering in the Mansion House kitchen.

GOVERNOR DUMMER'S A. R. P. UNIT

In connection with the nation-wide move to form Air Raid Patrols in every section of the country, Governor Dummer has resumed its A. R. P. unit this year. The system is based on the units functioning in nearby towns and cities. The local group, under Mr. Stone, Chief Warden of the Academy, has the entire school grounds under its supervision. Serving as assistant wardens are Mr. Adams and Mr. Ohrn.

Two methods of procedure have been worked out for use when air raid warnings are received. During daylight, the boys will go to assigned stations in the woods back of the school and will stay there until the "all clear" signal is given. At night, the members of each corridor will report to the first floor of the dormitory and proceed according to directions received at the time of the warning. Every building has been equipped with a supply of sand, sand buckets, a long-handled shovel, a hoe, and sufficient garden hose to reach all parts of the structure.

The district wardens, in charge of various parts of the campus, are Akin, Brillhart, Cooper, Cushman, Cressey, Hargreaves, Leinbach, Martin, Mason, and Twombly. Their assistants within the various buildings are: Barnard, Bean, and Storer in Perkins House; Adams and Wiles in Moody House; Damon and Roberts in the New Building; Fly, Hamilton, and R. Sewell in Peirce Hall. M. Monroe, Thomas, and Wood are assistants in the Commons Building; Brewster and Johnson in Duncan House; B. Pearson and H. Lawson in the Cottage; and Fiorini and Lambert in Ambrose House. In case of daylight raids, this force is supplemented by Holden, Hudson, and Twomey, who direct the day boys.

Operating also under Mr. Stone's leadership is a First Aid Unit which is on hand throughout the campus at all times during emergencies. Those composing this unit are Fowle, Goodhue, Hoyt, J. Lawson, Sawyer, and Wolff, with Mann and H. Lawson as alternates.

P. W. M.

MORE BRIEFLY

The winner of the Philip Cobb Scholarship from Camp Winona this year is Harry (Buddy) Lawson, brother of Dick Lawson, who held the scholarship last year and graduated in June.

FORMER FACULTY MEMBERS ENTER DIFFERENT FIELDS OF WORK

Mr. William H. Mitchell, instructor in Mathematics since 1932, retired during the summer because of age. Mr. Mitchell lived at his house in Charlestown, New Hampshire, during the summer. He has recently moved to Palm Beach, Florida, where he will do some teaching at the Graham-Eckes School.

The former Faculty Adviser to the ARCHON, Mr. Curtiss, who taught English and Latin, is now in the American Field Service. His final destination is unknown, but word has been received that he has reached a foreign port on the way to his post. He is the only member of this group who is out of the country at the present time. Boys who wish to write letters or to send Christmas cards should address them to: Pvt. Harold M. Curtiss, Jr., American Field Service, A. P. O. No. 616, c/o Postmaster, New York City.

Mr. Hill, who taught English and Mechanical Drawing, and who was head coach of hockey, has been commissioned an ensign in the Navy. He is now training at Annapolis and will go on active duty after the completion of his course in January. His address is: Ensign J. Chandler Hill, 49 Franklin Street, Annapolis, Maryland.

Mr. Daniel O. S. Jennings, who taught History and helped coach the varsity football team, is now Assistant to the President of Wesleyan University, at Middletown, Connecticut.

Mr. Stott, who had classes in History and Biology, has received his commission as lieutenant in the Marines. He is still at Quantico, but has applied for service in Alaska. His address is: Lt. F. A. Stott, Company F, 12th R. O. C., Quantico, Virginia.

MORE BRIEFLY

At a recent evening meeting, Mr. Eames read to the school parts of a letter received from Richard Schanzle, 1937. Dick is a lieutenant in the Marines and was with an anti-tank platoon in the first fight for Guadalcanal in the Solomon Islands. He wrote from his post in the Pacific: "At present writing I remain unmarried with slight prospect of changing that condition unless my idea of what color I wish my wife to be undergoes a radical change."

DUMMER ALLIES HOLD ANNUAL MEETING IN THE NEW BUILDING

The annual meeting of the Dummer Allies was held on August 25 in the living room of the New Building.

The following officers were chosen for the coming year: President, Mrs. William Dummer; Vice-President, Mrs. Paul Capron; Secretary, Miss Carrie S. Dummer; Treasurer, Mrs. Martin Burns, Jr.; and Auditor, Mrs. Martin Burns. Elected to the Executive Committee were Mrs. Edward W. Eames, Mrs. John L. Litch, Mrs. Arthur Page, and Mrs. Benjamin Stone.

The Scholarship Committee consists of Mrs. Arthur Johnson, Mrs. Robert Kitchell, and Mrs. Percival Lowell. This group recommended that the award this year be given to David Ambrose, grandson of Mr. Fred Ambrose, who was a great benefactor of the school in former years.

On the Nominating Committee for the future election of officers are Mrs. David Caldwell, Miss Helen Noyes, and Mrs. William Whitney.

Mrs. Arthur W. Moody was the only new member elected to the organization.

At the meeting, Mr. James Duncan Phillips, President of the Board of Trustees, gave an interesting talk on the early days of Governor Dummer Academy.

The members present at the meeting were Mrs. Martin Burns, Mrs. Martin Burns, Jr., Mrs. D. Burton Brown, Mrs. David Caldwell, Miss Gertrude Carleton, Mrs. William Dummer, Mrs. Edward W. Eames, Mrs. Harlan Floyd, Mrs. Harold Hidden, Mrs. Leverett Holder, Miss Annie Horsch, Mrs. Francis R. Kitchell, Mrs. Percival Lowell, Mrs. Arthur W. Moody, Mrs. Fred Nelson, Miss Helen Noyes, Mrs. Arthur S. Page, Mrs. James Duncan Phillips, Mrs. Cleon A. Rice, Mrs. Benjamin Stone, and Mrs. William Whitney.
J. S.

MORE BRIEFLY

The Essex Choral Society held a concert in the living room of the New Building on the last Sunday in August. This group, composed of boys and girls from Ipswich, Topsfield, Newbury, and other nearby towns, was directed by Mr. Sager. Miss Bertha Seifert and Mr. Richard McCabe were guest soloists on the piano. Mr. and Mrs. Eames provided refreshments.

THE NEW WORK PROGRAM

By LLOYD SELIGMAN, *Class of 1943*

The most noticeable change in life at Governor Dummer this year is the new work program. Every morning, except Sunday, the boys perform some of the tasks formerly taken care of by the household and maintenance staffs. A few students may still bewail the fact that they now clean their own rooms and halls in the morning and work at necessary jobs around the campus one afternoon a week, but the school as a whole has settled down cheerfully to the business of aiding the country to victory by taking the places of staff members who have joined the armed forces or have entered war industries. Even last winter the lack of help was evident, and though the need was not tremendous, Mr. Eames sought a solution which in the long run would benefit the boys and the school. This solution appeared in the boys themselves.

For several years the boys have done a few of the chores, such as waiting on tables, making beds, and other inside jobs. Now this list has been greatly enlarged. In the dormitories the boarding students fetch brooms, mops, carpet sweepers, and dust rags from the closets each morning and go to work. There is one job which is regarded unfavorably by some of the student body, and that is the business of cleaning the bathrooms, but since it must be done, it is done with good spirit. It consists of carrying a mop and a pail to the bathroom, filling the pail and mopping vigorously. Along with this comes the scrubbing of the bowls and fixtures. For some 'unknown' reason, dry mopping of the rooms is done with greater relish, as is dusting the stairs and sweeping the rugs.

These little jobs, when done as they have been during the first few weeks, bring results somewhat better than the standard of the past years—which is saying something for the boys. Even the bathrooms shine. Perhaps one of the reasons is that, since the boys do the work themselves, they are more careful to notice the mats in front of the dormitory entrances, and they don't indulge in toothpowder battles in the bathrooms before retiring. Experience has showed that the boys are able to complete their morning jobs in twenty minutes, so the work period has been shortened accordingly. This permits a half hour study hall before classes—only

slightly less time than existed before the new program went into effect.

In the dining hall, not only is the main course served by the boys, but all food items on the tables, except salt and pepper, are handled on trays carried from the kitchen after the meals begin. Chairs are moved to and from the living room for Vespers on Sunday evenings, and the study hall chairs are shifted by boys when necessary. The entire school, including the faculty, is learning how much work was done for them in other years. Boys also answer phones in the office during meal hours and weekends in place of the secretarial staff of former years.

The day students have the task of making the class rooms clean for use, and this is by no means an easy job. When a hundred and fifty boys stamp through the school buildings during seven periods of classes, a considerable film of grime is deposited. The day students, however, do well their part of the work.

When it is announced at lunch that a particular athletic group is to "Report in work clothes in front of the gymnasium," this group now knows what to expect. The boys report at 3:30 in the afternoon, and the work begins. Some are detailed to shovel at a ditch which needs filling, others take scythes to cut grass, and others—preferably those with strong stomachs—depart to pick apples for use in the school kitchen. At various intervals, members of a group find themselves edging walks. This last job improves the appearance of the campus, and it more or less relieves students of the tendency to trample the edges through pure carelessness. Recently, groups of boys have helped salvage several tons of scrap metal for use in the war effort, and others have cut and sawed cords of fire wood to be used in fireplaces throughout the school.

All in all, the present program is working out well. One of Mr. Eames' objectives during the present period is to toughen boys for the crisis which exists in the world today, and to teach boys responsibility and respect for labor. The work program fits in. The system also increases the respect of the people in the nearby towns and villages.

WE, THE STUDENTS

On October 15, 1942, the following excerpt from an editorial entitled "Nothing Soft" which appeared in the *Boston Globe*.

From Governor Dummer Academy at South Byfield comes the message Headmaster Eames has sent out to the boys and their parents: "It is not enough for the boys of school age simply to stay in school: they ought to stay on the job, but they ought to do the job twice as hard and twice as well."

He goes on to stress training the mind, toughening the body, and strengthening the character. He speaks of additions to the program of new courses designed to lay a foundation for military or naval science and pre-flight training. In addition, hard manual labor of the sort that was once paid for is also asked. Anything approaching softness is out in New England boarding schools.

It was a bewildered group of boys who left Governor Dummer last spring. We were confused and full of apprehension. How could we, the students, best serve our country in this period of crisis? To many of the older boys it seemed the selfish thing to continue our schooling while there was work to be done on the fighting front and on the production lines. Some of us seriously considered terminating our education for the duration of the war, in order that we might lend a more active hand in the war effort. "How may we best serve our country, now?"

was the perplexing question weighing on our minds in June of 1942. Our future at Governor Dummer Academy was uncertain, to say the least.

For many of us it was not until after we had read Mr. Eames' message to the students and parents that we decided to return to the books. On reading Mr. Eames' letter some of us began to realize for the first time in our lives that the greatest necessity in the world today was neither tanks, nor guns, nor planes, nor ships, nor soldiers, nor sailors. We suddenly became aware that strong leadership built upon educated minds, strong character, and healthy bodies was the world's most desperate need today; that if the educational process in this country slackened, there would be no hope for a better world in the future.

The reaction was spontaneous. On September 14, practically every undergraduate returned, and an enthusiastic group of newcomers appeared on the campus to experience the new courses, the additional manual labor, and the more rigorous athletic program. These have been overshadowed in importance by another great change which has come over each individual member of the student body.

That change is the change of attitude toward studies, toward athletics, toward duty in general. To a student who has attended Governor Dummer in previous years, this is the greatest and most noticeable alteration. There is a greater determination to get ahead. This quality may not be revealed to outsiders until they witness an athletic event here at the Academy. The spirit and determination of the boys on the football and soccer squads has enabled them to stand up against, and even overwhelm, more formidable opponents.

Such spirit as this has marked the opening of a new year at Governor Dummer, the one hundred and eightieth year of its existence. Not only has the war failed to prevent the Academy from retaining its high stand among New England schools, but the war has provided new incentive to the students, who have the indomitable determination to serve their country in her greatest hour of need.

THE NEW WORK PROGRAM

(Continued from Page 5)

Hitherto, some boarding schools have been regarded by some people as luxurious establishments, but, judging from the tone of recent editorial comment in a city newspaper, this feeling seems to be fading so far as Governor Dummer is concerned.

The policy certainly does give the school a closer relation to that real democracy for which we strive. Having in mind the ideals and traditions that have made the school what it is, the boys of Governor Dummer will continue to work for democracy and for victory.

THE BOX SCORE

Jobs recently completed by work squads in the afternoons are as follows:

1. Filling 350 feet of ditch over the new pipe line at Ambrose House.
2. Picking 20 bushels of apples.
3. Trimming campus walks twice.
4. Raking leaves on the school grounds.
5. Gathering 3 tons of scrap metal.
6. Cutting several cords of fire wood.
7. Moving the bleachers on Morse Field.
8. Clearing weeds from hockey pond.

PICTURES OF ATHLETIC TEAMS ON
DISPLAY IN NEW BUILDING

During the summer an attractive photographic display of athletic team pictures was placed in the basement of the New Building. Arranged by Mr. Andrews, this collection has been located near the entrance to the school store, and it covers a large section of the wall on which it is mounted. Carefully framed and chronologically arranged, the pictures present an enduring record of Governor Dummer's team histories for the years 1935-1942 inclusive.

Group photographs are shown of the following sports (here listed according to seasons): Fall—Football and Soccer; Winter—Basketball, Fencing, Hockey, and Wrestling; Spring—Baseball, Lacrosse, and Track. An interesting and unusual feature of the display is the fact that all the pictures are included within a single frame of considerable size, twenty-two feet in length and three feet in height.

The pictures will be of great interest to alumni who return to visit the school, as well as to the parents and friends of the boys themselves. The collection will be supplemented when more photographs are taken at the close of each season.

R. H.

Alumni Notes

1932: George N. Laite was commissioned a second lieutenant at Fort Belvoir, Virginia, in September. He is stationed at the Army Air Force bombardment base, Will Rogers Field, Oklahoma.

1939: John Newman is a cadet at the Merchant Marine Academy, Great Neck, N. Y.

1939: Joseph W. Pearson, a student at Brown University, has been elected one of the eight members of the Junior Prom Committee there. He is a candidate for an A. B. degree under the new accelerated plan, and is treasurer of the Brown year book.

1940: Edwin S. Sheffield has been elected captain of lacrosse at Williams College. He is a member of Delta Kappa Epsilon fraternity, is serving this year as a junior adviser, and has received a letter in cross country.

1940: David H. Solomon has been elected to membership in Phi Beta Kappa by the chapter at Brown University. He is a member of Pi Lamda Phi fraternity and is a James Manning scholar.

1940: Willard S. Little, Jr., is on the most recent Dean's List at M. I. T.

1941: Harold A. Knapp, Jr., is also on the Dean's List at M. I. T.

Last Year's Graduates

1942. Robert B. Harris is a cadet at the Merchant Marine Academy, Great Neck, New York.

1942: David Jarvis, last year's soccer captain, is playing on the varsity team at Clark University.

1942: John H. Kimball, Jr., is playing goalie on the varsity soccer squad at Brown University. He is a member of Delta Kappa Epsilon fraternity.

1942: Robert A. Pickett, last year's football captain, is on the freshman team at Yale. He holds a Cooper Scholarship, awarded to undergraduates chosen because of their character and capacity for leadership.

1942: Walter T. Wheelock is enrolled in the course of wool manufacturing at the Rhode Island School of Design in Providence.

1942: Five of the class are at Amherst College. Richard Coffin plays freshman football and pledged Chi Phi fraternity. Derek Lagemann pledged Phi Kappa Psi fraternity. Seward Pomeroy and Ted Stitt pledged Theta Delta Chi. Howard Stirn plays on the varsity soccer team and pledged Psi Upsilon fraternity.

MORE BRIEFLY

Mr. Harris has conducted two Saturday morning nature hunts during the first six weeks of school. On September 26 a group of ten boys went with two government men to an island off the coast to observe the banding of birds caught in traps. A week later, another group of sixteen boys went to the shore to gather sea water, sand, and specimens of marine life for the aquarium in the biology laboratory.

* * *

The restrictions on chartered busses this year prevent the customary expeditions of the Episcopalians to church in Ipswich. As a result, this group has joined the rest of the boys in walking down the road to the Byfield Parish Church on Sunday mornings.

* * *

A very recent change involves the entrance to Perkins House. The entire door frame, including overhang and columns, has been removed, and instead there is a new doorway which matches that on Moody House. This creates a uniform appearance on the northern side of the campus.

* * *

The cheerleading staff, coached by Mr. Stone has been in evidence at the home football games. There are twelve candidates, including the veterans Art Fiorini and Louis Allen. No definite appointments have been made, though Jim Damon and Jack Barrell handled the cheering at the Kimball Union game. Others will be tried later in the season.

* * *

Mr. Page and Mr. Sargent, former assistant secretaries in the school office, are now in the Army.

SCHOOL CALENDAR: 1942-43

Thanksgiving Recess: Wednesday noon, November 25, to Sunday, November 29, at 8:30 p. m.

Christmas Vacation: Friday noon, December 18, to Monday, January 4, at 6:30 p. m.

Spring Vacation: Friday noon, March 12, to Wednesday, March 31, at 6:30 p. m. Regular classes on Saturday, April 3.

College Board Examinations: Saturday, April 10.

Final Examinations: Friday, May 21, through Tuesday noon, May 25.

Commencement Exercises: Tuesday evening, May 25, through Thursday morning, May 27.

FALL SPORTS

This year all athletic schedules are complicated by war-time transportation difficulties. Because there is uncertainty as to the ability of schools to play every game planned, and because it is not possible to look beyond the fall season, Governor Dummer has not printed the full sports program as in the past. Instead, a tentative schedule has been mimeographed and distributed to boys, parents, and newspapers. This schedule is reproduced here in form convenient for clipping by those persons interested in attending the games or in following the records made by the school teams.

FOOTBALL SCHEDULE, 1942

Saturday, October 10	Middlesex School	home	2:30 p. m.
Saturday, October 17	Kimball Union Academy	home	2:30
Saturday, October 24	Milton Academy	away	2:30
Saturday, October 31	Thayer Academy	away	2:30
Saturday, November 7	Moses Brown School	home	2:30
Saturday, November 14	Tabor Academy	away	2:30
Friday, November 20	Deerfield Academy	away	2:30

SOCCER SCHEDULE, 1942

Wednesday, October 7	Phillips Andover	home	3:30 p. m.
Wednesday, October 14	Harvard Freshmen	away	4:00
Saturday, October 17	Kimball Union Academy	away	2:30
Saturday, October 24	Brooks School	away	2:30
Wednesday, November 4	Phillips Exeter	away	3:30
Saturday, November 14	Tabor Academy	home	2:30

FOOTBALL TEAM WINS FIRST GAME VICTORY OVER MIDDLESEX

Governor Dummer opened its 1942 football season October 10 with a 19-0 victory over Middlesex School on Morse Field. While the superiority of the home team was evident, the visitors deserve credit for their stubborn defense maintained throughout the first half. It was not until the third period that the Governors were able to score, when passes by Bots Young to Paul Titus and Bob Tannebring were good for 37 yards and a touchdown.

The game opened as Middlesex kicked to the Governors, who ran the ball back to the opponents' 14 yard line in six plays. The ball was lost on downs and the Governors were unable to make another serious threat during the first half.

Titus received the kickoff to open the second half, running the ball up to middlefield. Several runs netted little gain and Bob Sewell

kicked into the end zone. Middlesex fumbled and recovered on its own one yard strip. Thereafter the opponents were in trouble, and Tannebring scored late in the period.

A poor punt again put Middlesex behind as the fourth period got under way. The Governors took over on the Middlesex 22, and Bill Hale ran the ball to the seven yard line. Wiswall scored two plays later on a reverse, but Mitch Fish's try for the extra point was blocked.

Titus' interception on Middlesex's second play after the kickoff set the stage for the Governors' third touchdown drive. Hale opened the offense with a 15 yard run, and a pass to Sandy Smith was good for a first down. Jimmy Waugh scored two plays later on a wide sweeping end run. He passed to Jim Munro for the extra point, thus ending the scoring.

Titus' blocking, Brewster's signal calling, and Waugh's running easily made them the outstanding players of the day. M. M.

Photograph by Howard Halbert

CAPTAIN HAL LEINBACH BREAKS UP ANDOVER TEAM PLAY

GOVERNOR DUMMER SOCCER TEAM TIES ANDOVER ELEVEN

The 1942 varsity soccer team, captained by Hal Leinbach and coached by Mr. Navins and Mr. Stone, opened its season October 7 on Whipple Field by tying Andover 1-1. After six minutes of play, Ed Breckenridge passed to Pete Morgan for the Governor Dummer score.

The game then settled down to a see-saw battle, with the Red and White holding its own against the visitors. The backs, Leinbach and Humphrey Simson, got off some long kicks. Both teams threatened continually, but neither was able to tally. In the final stanza, Andover's right wing headed in a corner kick to tie the game at one-all.

The game ended a few minutes later, but both teams were not content with the tie score and agreed to play two five minute over-time periods. All attempts to score were staved off, however, and the final result was a 1-1 deadlock.

Outstanding players, besides those already mentioned, were Dick Veasey, who saved many hard shots at the goal, and Sammy Waugh and Henry Kelly, who centered the ball with accuracy from their wing positions.

GOVERNORS' BLOCKERS TRYING TO CLEAR PATH FOR YOUNG

LONG RUNS BY CAREY OF KIMBALL UNION DEFEAT GOVERNORS

Governor Dummer lost the second football game of the season to Kimball Union Academy on the home field October 17. The Governors rolled up eleven first downs to five for Kimball Union, but came out on the short end of the score, 26-12.

Kimball Union kicked off, Bill Hale receiving the ball and running back to the mid-strip. The Governors were unable to make any sizeable gains and Bob Sewell kicked to the Kimball Union nine yard line. The visitors attempted to kick themselves out of danger, but the Governors blocked the kick and recovered on the three yard line, and Hale went over on the second play.

Kimball Union received the kick off and opened its offense by returning the ball to the Governor Dummer 29 in ten plays. Carey who was the spearhead of the attack, faded back to the 45 yard marker and passed to his end on three yard line, and a touchdown was scored. The try for the extra point was unsuccessful.

Almost the entire second quarter was played in Kimball Union territory. Late in the period, however, the visitors started a drive from their 18 to the 50 yard strip. There a short

pass put Carey in the clear and he ran 42 yards for the score. This placed the opponents in the lead 12-6.

Kimball Union opened the second half by running the kickoff back 86 yards for a touchdown, Carey again carrying the ball. A successful conversion made the score 19-6. Several plays later, the Governors recovered a fumble on the visitors' 27 yard line. A running play and a pass to Mitch Fish put the ball on the 3. Bots Young went over, but the try for the extra point failed. The Governors drove deep into Kimball Union territory during the last minutes of the third period.

Early in the fourth quarter, the ever-present Carey intercepted a pass on his own 12 yard line and raced the length of the field to score once more. He then kicked the extra point, creating a 26-12 lead. The Governors pushed vigorously during the rest of the game, but were unable to score.

BOOTERS TIE KIMBALL UNION IN THIRD GAME OF SEASON

On October 17 the Red and White soccer team travelled to Meriden, N. H., to meet the Kimball Union Academy booters. The game ended in a 1-1 tie, both teams scoring in the two five minute over-time periods.

The Governors did not show the same power, drive, and skill that they had in their previous games. Even though both teams took innumerable shots at the opposing goalies, coolness in handling the ball prevented any score during the regular four periods. Dick Veasey made several spectacular saves for the Red and White.

In the first over-time period, the Kimball Union team gained a corner kick on which they scored when the ball was headed in with a fine shot. The Red and White did not give up, however, and, with less than two minutes left to play, Ed Breckenridge passed to Jack Collins for a score. The game ended with the Governors threatening until the very last, but they could not break the opposition defense a second time.

W. McK.

The soccer team defeated the Harvard Freshmen 3-1 at Cambridge on Wednesday, October 14, in the second game of the season. The play was even in the first quarter, with Harvard showing better passing and all-around team work, but lacking the scoring punch to take the lead. Long boots and timely kicks by Art Fiorini and Dave Mason saved the Red and White on several occasions.

The Governors came to life in the second period and completely outclassed the Freshmen. The work of Hump Simson and Hal Leinbach kept the ball in Harvard territory most of the time. The team went ahead when Leinbach scored on a kick from twenty yards out. Ed Breckenridge then came through with a goal after he received a pass and got in close with a fancy piece of footwork.

Harvard came back in the third period when they scored on a corner kick that was headed in. They had many other shots that either went wide or were saved by goalie Dick Veasey. Sam Waugh, Pete Morgan, and Henry Kelly displayed fine soccer, both defensively and offensively, in their line positions.

Breckenridge made sure a Red and White victory by scoring in the final period and putting the team out front 3-1. This is the first time the soccer team has ever beaten Harvard, and it was due to the fighting spirit maintained during the entire game.

W. McK.

NELS COREY, FORMER STUDENT, RETURNS AS LINE COACH

Mr. C. Nelson Corey, of the class of 1935, has returned this year as line coach of football. At Governor Dummer he excelled in football, hockey, and baseball. In addition, his high rank in scholarship won him membership in the Cum Laude Society.

At Bowdoin College he captained the football team in 1938. Later he taught Mathematics and coached for three years at the Pomfret School in Connecticut. He will remain at Governor Dummer until the end of October, when he will join the Navy's V-7 class in New York City.
